### Extension Activity Report 2022-2023

#### Title- Lab Awareness and Food Adulteration Awareness

The Chemistry Department of Yashwantrao Chavan Institute of Science, Satara Conducted Extension Activity on Lab Awareness and Food Adulteration Awareness for Junior College students at Mahatma Gandhi Junior College, Umbraj at 9 am to 11.30 am on Tuesday, 18/10/2022. This extension activity was introduced by Dr.P.V.Chavan giving information about our college, facilities and other activities taken in college. After that Dr.H.V.Hangerge gave information about job opportunities and research opportunities after completion of graduation and post graduation.

The aim of our extension activity is to create awareness about handling of hazardous chemicals and also create awareness about Food Adulteration in junior college students. This activity is helpful for the students at junior college level.

Miss. V. V. Pawar conducted the session on laboratory safety, handling of chemicals do's and don't in the laboratory. The involvement of the students was a very excellent. We were able to convince the students in college and chemical lab staff to take every guideline seriously and it's for their own good to avoid the mishaps (accidents) in the chemical lab. The short instructions with clearly defined Do's and Don'ts in many places in lab help everyone when they are in doubt. We learned handling chemicals is responsible task but it can be fun too.

Miss.S.A.Babar conducted the session on Food Adulteration Awareness. She gave information about what are the impurities in food and how recognize this impurity by using small experiments.

After that Miss.V.V.Walekar purposed vote of thanks of this activity.

110 participants were attended and are benefited by this activity. We are thankful to our beloved HOD, Dr. S. T. Mahanwar and Hon. Principal Dr. B. T. Jadhav, Vice-Principal Dr.J.J.Chavan for motivating us to arrange and conduct such kinds of activities. Also to Extension activity coordinator Dr.P.V.Chavan for providing financial assistance through extension activity program.
