Research Paper Publication and Presentation :

Publications: Presentation :- 1,
Publications :- 1

Environment: C#, .Net 2008, SQL SERVER 2012, Crystal Report

Description: This application offers a comprehensive billing and accounting package that is specifically designed for Housing Societies. When using Software for society accounting, Housing Societies do not need other accounting software such as Tally to maintain their accounts. Treasurers can easily maintain accounts on their own or delegate the book-keeping to accountants with the help of powerful role based access control. In both cases, the amount of time required for book-keeping is drastically reduced due to the automation and bulk upload features of several key Treasurer Activities and auto-reconciliation with bank accounts - thereby giving huge savings to Housing Societies. All the reports we developed on crystal report.

6)Adarsh Maintenance System Duration: 2 months Team size: 2

Environment: C#, .Net 2008, SQL SERVER 2012, Crystal Report

Description:

The HR function consists of tracking existing employee data which traditionally include personal histories, skills, capabilities, accomplishments and salary. To reduce the manual workload of these administrative activities, organizations began to electronically automate many of these processes by introducing specialized Human Resource Management Systems. Human Resource Management Systems encompass: payrolls, Work Time, Benefits Administration, HR management Information system, Training/ Learning management System.

Academic Projects

➤ E-Learning Classroom (MCA III) Jun 12 -Dec 13

This web site gives to electronically supported learning and teaching of any kind.
