Program
On
“PSYCHOLOGY OF CRIMINAL CONDUCT”**

**Organized by
Department of Forensic Science**

B.Sc. Forensic Science is having Psychology as one of the subject for all the three years. So as to understand investigative psychology its important to know different stages involved during development of Human Being so as to know reasons behind developing criminal behaviour. Hence it is nessesary to organize a lecture on topic “Psychology of criminal conduct”. The lecture was given by Miss. Nidhi Pandya, research scholar, Dept. of Forensic Science, Gujarat University Ahemdabad.

The event was inaugurated by Prof.P.V.Bhise Head of the Department. The lecture was based on how the criminal tendency developed and how the personality and environmental factors affected on it.

The number of students present were 110. The lecture was arranged on 18th Dec.2017 at 1am in A-18.
