

Workshop on “Infrastructure Quality Measures”

To provide the conducive atmosphere and ambience for effective teaching learning process and to nurture overall development of the student a quality infrastructure plays a very important role. Hence to aware and to interact on such subject, Internal Quality Assurance Cell and Quality Improvement Programme Committee of the institute has organized online workshop on “**Infrastructure Quality Measures**” on 28th May 2021. Dr. P. V. Chavan, co-ordinator of NAAC Criteria IV introduced the program and welcomed all dignitaries, resource persons and the participants. The Honorable Principal Dr. B. T. Jadhav honoured the occasion with his auspicious presence and with the excellent presidential speech he assured to provide the same learning environment for student’s development.

The first session was conducted on topic **Legal Permission and SOP for Creation of New Infrastructure/ Facilities** by Hon. Prof. Dr. M. B. Kumthekar, Head of Civil Engineering Department, Government College of Engineering, Karad. While talking, he advised that to achieve excellence in our domain, institute should have active, visionary and transparent leadership. He disclosed various funding agencies like UGC, AICTE, RUSA, DST etc. which are essential for development of the institute. In the detailed session he came across with the importance, components and various steps in development of infrastructure like strategic planning, vision, availability of land, discussion with architect, brainstorming on plans followed by finalization of plan. He also threw a light on legal permissions, and SOPs associated with the new infrastructures.

For the Second session Hon. Principal Dr. A. C. Attar, from Karmaveer Bhaurao Patil College of Engineering, Satara guided on the topic **Measurements of Quality Infrastructure**. In this session he presented his expertise in giving a detailed knowledge of various physical facilities like campus ambience, academic infrastructure, indoor and outdoor sports facilities, extra-curricular facilities and library facilities. He also discussed the need of quality infrastructure like future smart classrooms, ICT enabled classrooms, smart boards, LED screens, Display boards, Activity tables, live painted and interactive

corridors, LMS and how these are required for enhancing quality of teaching learning process.

The speaker of third session, Mr. A. D. Kadam delivered a talk on **Infrastructure Design, Quality Measures and Maintenance**. With his warm words he enlightened participants about how right ambience is needed in imparting quality education in which he mainly focused on spacious classrooms, well equipped laboratories, well stocked libraries, conference halls, exam halls, sport grounds and their maintenance. He summarized the existing and newly added infrastructure facilities of our institute, waste management planning strategy while considering new infrastructure and also gave insight into new building under construction and its planning.

Total 60 participants participated in the virtual gathering of this workshop including Heads of Departments, Building Committee Members and QIP members of the institute on the Zoom platform.
